Senator Don Nickles (R-Oklahoma) will be the featured speaker at this month's Chemical Forum on Thursday, June 16, 1988. Senator Nickles is a member of the Appropriations Committee, Budget Committee and the Energy and Natural Resources Committee. He will discuss budget priorities for the U.S. Environmental Protection Agency as well as other funding and energy issues on the Senate agenda.

This interesting and insightful Chemical Forum will be broadcast in its entirety via satellite. It is for your free and unrestricted use.
